If an employee reaches the 150% maximum, the monthly accruals shall be zero (0) until the employee is below the maximum allowed.

~~Vacation time, except as detailed noted above, cannot be carried forward from year to year except when an only exceed the 150% threshold if the employee has been precluded is precluded from taking vacation because of any action of the Town. In this situation, the an employee shall immediately present a "vacation use" plan to the Board of Selectmen to rectify the deviation from this policy. Part Time Employee Benefits

Both the Longevity Plan and the Vacation Plan call for eligible part-time employees to receive “pro rata” shares of these benefits. Part-time employees working an annual average of 18 hours per week qualify on a pro-rated basis in accordance with his/her regular hours of work. For instance, if a part-time employee regularly works 5 hours per day, then the part-time employee will only be entitled 5 hours of pay when he/she takes a vacation day. Part-time employees also “earn” their benefit on a weekly basis rather than monthly. The Part-time accrual is strictly based upon actual hours of work. A Part-time employee does not accrue hours while on any form of leave. having it fully earned at the beginning of the year like full-time employees. A Part-time eligible employee who becomes a Full-time employee shall carry any unused vacation time into their Full-time accrual bank. Paid vacation days for years worked prior to becoming a full-time New Boston employee may be allocated at the discretion of the Board of Selectmen. Part-time eligible employees shall accrue time based upon the following formula:

0-5 year employee = 80 hours annual accrual.
Divided by 52 weeks,
Divided by 40 hours per week,
Equals an hourly accrual rate of .0385.

The rate (.0385) is then multiplied by the actual hours worked each week for the pro-rated vacation accrual.

Example: Employee “Jones” is a Part-Time employee who works 20 hours each week. On an annual basis, they would be eligible for 40 hours of vacation based upon hours worked. Using the above formula:

$20 \text{ (hours)} * .0385 = .77 \text{ weekly accrual}$
 $.77 \text{ (weekly)} * 52 \text{ (weeks)} = 40.04 \text{ hours}$

A Part-time employee whose service to the Town of New Boston exceeds 10000 hours (or the equivalent 5 years full time) may submit a request to Board of Selectmen, through their Department Manager, for consideration of an increased accrual rate. Said rate will be based upon 120 hours of annual vacation. If granted by the Board, the accrual rate shall be .0577 per hour of work.

PART-TIME EMPLOYEE BENEFITS

~~Both the Longevity Plan and the Vacation Plan call for eligible part-time employees to receive “pro-rata” shares of these benefits. The calculation of the pro-rata factor shall be as follows; the relativity relationship we are looking to establish is what percentage of full-time hours has the part-time employee worked. To determine this percentage, we divide the part-time hours worked to date by the number of hours that a full-time employee would have worked in the same period. Next determine what portion of the year has elapsed. These factors are then multiplied by the annual full-time benefit applicable based on the plan to determine the amount of the benefit available at any point in time.~~

~~TO-DATE~~

~~9 weeks X 40 hours = 360 hours (F/T employee)~~

~~# of hours worked = 157 (assumed actual hours worked)~~

~~157/360 = .44~~

~~9 weeks/52 weeks = .17 (elapsed portion of the year)~~

~~80 X .44 X .17 = 6 hours earned and due as of this date~~

~~Whether an employee meets the eighteen (18) hours per week minimum to qualify for pro-rata benefits will be determined by referencing the budget. If it is anticipated via the budget construction that the employee will be working on average eighteen (18) hours per week over the course of the year, they qualify for part-time benefits. Their pro-rata earned benefit will be calculated as in the sample above, based on how many hours they have actually worked with the budgeted amount as a floor or minimum.~~

~~Eligible part-time employees earn their vacation benefits on a weekly basis. It is not fully earned at the beginning of the year, as is vacation for full-time employees. Vacation can be taken in advance of being fully earned based on annualization of the expected benefit with the~~

~~understanding that should the employee leave the employment of the town before all the hours~~

~~used are earned, those hours not earned will be deducted from the employee's last pay check. Department Managers will consult with the Town Administrator before granting any vacation days not yet earned.~~
